Basmati Rice

Basmati Rice

Basmati rice is a long-grain, aromatic rice known for its fluffy texture and distinct nutty flavor when cooked.

Basmati rice is a premium variety of long-grain rice, primarily grown in the Indian subcontinent, especially in India and Pakistan. Renowned for its delicate aroma, slender grains, and nutty flavor, Basmati rice is a staple in many traditional cuisines, including Indian, Middle Eastern, and Persian dishes. When cooked, the grains remain separate, soft, and fluffy, making it ideal for pilafs, biryanis, and steamed rice dishes. Basmati rice is available in both white and brown varieties, with brown Basmati retaining more nutrients and fiber. Its unique fragrance comes from a naturally occurring compound called 2-acetyl-1-pyrroline, which gives it the signature aromatic quality. High-quality Basmati rice is aged for several months to enhance its texture and flavor. It is also considered a healthier option due to its lower glycemic index compared to regular white rice, making it suitable for people managing blood sugar levels. Overall, Basmati rice is valued for its taste, aroma, and versatility in global cuisine.

Exporting Countries: India

Jasmine Rice & Green Cardamom

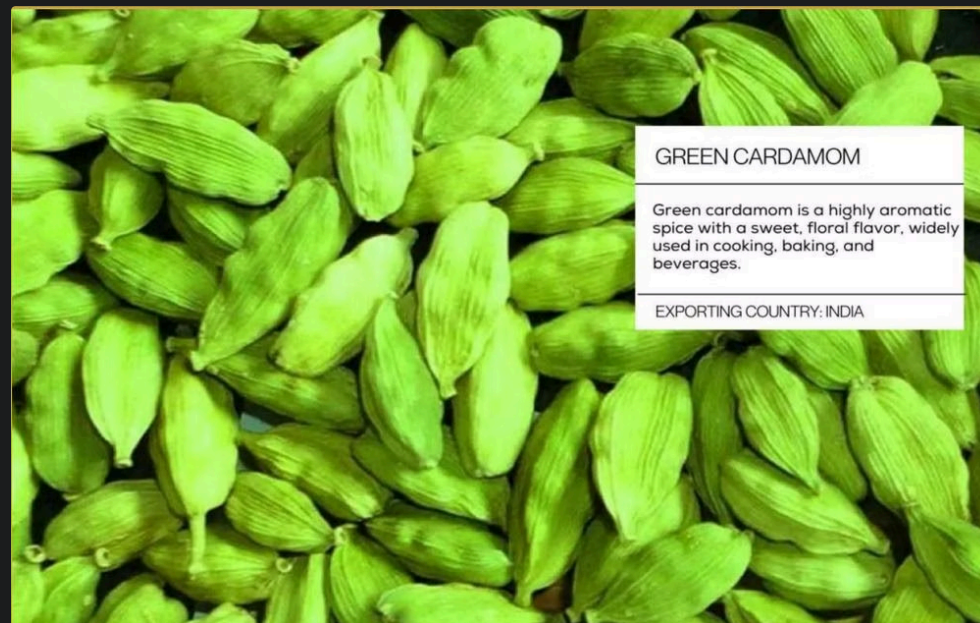

Jasmine Rice

Jasmine rice is a fragrant long-grain rice primarily grown in Thailand, known for its soft, slightly sticky texture when cooked. It has a subtle floral aroma and a naturally sweet flavor, making it perfect for Asian dishes like stir-fries and curries. Its light, fluffy grains absorb flavors well, enhancing the taste of any meal.

Exporting Countries: Vietnam, Thailand

Green Cardamom

GREEN CARDAMOM

Green cardamom is a highly aromatic spice with a sweet, floral flavor, widely used in cooking, baking, and beverages.

EXPORTING COUNTRY: INDIA

Green cardamom is a highly aromatic spice with a sweet, floral flavor, widely used in cooking, baking, and beverages.

Green cardamom of 8mm size represents premium-grade pods, prized for their uniformity, freshness, and superior flavor. These carefully selected pods contain small, highly aromatic seeds that release a sweet, floral, and slightly spicy taste, making them ideal for both culinary and beverage applications. Sourced from leading cardamom-growing regions, these 8mm green cardamom pods are known for their excellent oil content, long shelf life, and consistent quality, ensuring that they meet the high standards required by exporters, traders, and specialty spice markets worldwide. Their size and appearance also make them visually appealing for retail packaging and premium blends.

Exporting Country: India

Black Cardamom, Saffron, Cumin & Dry Red Chilli

Black Cardamom

Black cardamom is a smoky, bold-flavored spice with a distinct aroma, commonly used in savory dishes and traditional cuisines.

Exporting Countries: India

Shisha Charcoal & Hardwood Charcoal

SHISHA CHARCOAL

Shisha charcoal is specially made fuel used to heat flavored tobacco in hookahs, providing consistent and long-lasting heat for smoking.

EXPORTING COUNTRIES: INDONESIA & VIETNAM

Shisha Charcoal

Shisha charcoal is specially made fuel used to heat flavored tobacco in hookahs, providing consistent and long-lasting heat for smoking.

Exporting Countries: Indonesia & Vietnam

Shisha Charcoal – Coconut Shell

Coconut shell shisha charcoal represents a premium, eco-friendly alternative to traditional charcoal, crafted from sustainably sourced coconut shells. Renowned for its high density and slow-burning properties, it produces minimal ash and emits a clean, consistent heat, enhancing the flavor and longevity of the shisha experience. Unlike conventional charcoal, coconut shell charcoal is virtually odorless and free from chemical additives, ensuring a pure and natural smoking session. Its superior ignition and prolonged burn time make it highly efficient, reducing the frequency of charcoal replacement while maintaining optimal heat distribution. Favored by enthusiasts and commercial hookah lounges alike, coconut shell shisha charcoal combines environmental sustainability with superior performance, elevating both casual and professional hookah sessions.

Hardwood Charcoal

Hardwood charcoal restaurant grade from Ayin wood is high-quality, non-sparking charcoal, ideal for consistent, safe, and efficient cooking in professional kitchens.
